PUBLISHER'S NOTICE. IS WORK was commenced in November 1884, the computation of the author then being that it could be comprised in one thousand four hundred pages, and would occupy two years. Many unlooked for obstructions, chiefly of a typographical majure, materially retarded the progress of the work in the first instance, and these being Plent & Co., Chins. overcome, the author discovered that he had underestimated the extent and the importance of the vast task be bad undertaken, and that it would occupy fully double the time and space which he had at the outset computed. The publication of a work of such magnitude, and presenting so many and such varied obstacles,

seldom falls to the limited resources of one single hidividual, as occurs in this case. The first part of the work is now issued, partly at the request of the author and partly to afferd the Foreign Community of thing an appointifulty of extending that secistance to the publisher, which under the piroumstances is usually so freely aggorded. The prior of the book complete, will be \$30, and it will be published in four parts at \$7.50 each. But this objection presents itself to the sale of the parts separately, should the purchaser of one or more parts not take the others, a number of incomplate, and consequently valualess, copies will he left on the publisher's bands. To remedy | no interest is allowed and this objection, in consideration of the pircum- collecting Bills, Cheques, & stances already alluded to, it is acped that those who see fit to patronise the undertaking by purchasing the first part, will not object to signing an engagement to take the remaining parts as they appear, or should they prefer it, tupay for the on- able in Hongkong having tire work in advance.
